

CASES BEFORE THE GRAND JURY

William Niblets, a negro, who is accused of having sold liquor to Indians, and Attorney L. A. Gibbons was yesterday appointed by Judge O'Brien to defend him.

SAN FRANCISCO MEN PLEASED

ARE ASTONISHED AT BUILDINGS AND BUSINESS OF TONOPAH.

Louis Rosenberg and R. H. Nathan, two merchants from San Francisco, are here for a brief stay, and they are both much pleased with this, their first visit to Nevada. "I was astonished to see such a city as Tonopah in the desert," said Mr. Rosenberg. "Why, this is a modern town in every respect, and one can get as good living and as reasonable as in San Francisco. I have not had an opportunity of looking over the mines, but from all I see here, the ore on the dumps, the mills at work, makes me believe that this is a great mining camp. I had no idea that there was so much activity and that there was such a number of fine buildings."

CLEANLINESS IN ORDER OF DAY

HOUSEHOLDERS ENGAGE IN THE CLEANING UP PROCESS.

Spring is at hand and the work of cleaning up the backyards and front yards is in progress. Overseer Deagan, who has the work in charge, wants the co-operation of the householders in the cleaning up process. Just now he is going around with the big broom, but if he does not get the necessary support, he will be around shortly with the big stick.

There was a great deal of microbe carrying debris found after the melting of the snow, and this is being removed as fast as possible, with the injunction served upon the householders that a recurrence of the offense means arrest and punishment.

SECOND SOCIAL WAS A SUCCESS

GOOD TIMES DANCING CLUB SPENDS DELIGHTFUL EVENING.

The Good Times Dancing Club gave its second social at Miners' hall last night, and it was a great success. The social was preceded by the dancing class from 7:30 until 9 o'clock, and there were fifteen scholars. Professor Thomas caters particularly in the class, to women and children, but there is no bar to the sterner sex. At the dance after the class there were thirty couples present, and everybody had a most enjoyable time from 9 o'clock until midnight.

If you want to learn to dance, or if you want a real enjoyable time, Miners' hall on Monday night is recommended.

FINE PERFORMANCE AT THE BUTLER

The new bill at the Butler is certainly a great hit and was witnessed by crowded houses at both performances. The first picture, "Moon Gobins" or a child's dream, is of a very fascinating nature and is bound to please everyone who sees it. It shows clearly the moon and its inhabitants besides a weird trip from earth to the moon. The song, "Sweethearts and Roses," is well illustrated and well rendered. "A Living Arm Chair" and "The Gainsborough Hat" are of a comic nature and causes much merriment. "Views of London" is one of the best films ever brought to town and one that is enjoyed by everybody. It shows the principal streets of that great city, also several different views of Westminster Abbey. The song "Golden Dreams" is a very beautiful piece and is a drawing card for every performance. "The Miner's Nephew" and "The Clown Donkey" also deserve special mention, being reproduced very clearly and are taken from good live subjects.

LOSE IN BANK FAILURE.

WASHINGTON, March 2.—The correspondent of a service paper says: Fully three-fourths of the officers stationed in and around San Francisco lost all of their hard-earned savings in the California Safe Deposit and Trust Company's failure. Some of them lost personal funds, others company funds. This has led to a revival of the proposition to enact legislation permitting the army officers to deposit their money with paymasters, just as enlisted men are encouraged to do.

ANNUAL MEETING OF BREYFOGLE

DIRECTORS ORDER EXPENDITURE OF MONEY FOR EXPLORATION WORK.

The annual meeting of the Manhattan Breyfogle Mining Company was held last night in the office of Langley-Trimble Co., and the following officers and directors were elected: C. H. McIntosh, president; C. C. Boak, vice-president; A. D. Bell, secretary; J. J. Trimble, treasurer; Eugene Howell, H. S. Crockett and J. W. Langley.

The lease of the property, recently made to A. J. Poak and associates, was ratified. The directors declared their intention of devoting time and money to the explorations of surface holdings.

There has been a rumor for the last few days to the effect that there has been discovered on one of the claims of the Breyfogle, the biggest surface showing yet found in the camp.

WRESTLING MATCH FAILED TO CONNECT

NOT ENOUGH MONEY IN SIGHT TO INDUCE TIPPETT TO ENTER CONTEST.

There was a wrestling match that did not come off on Sunday afternoon at the Butler theater. The reason therefor was that the box receipts did not warrant the appearance of Jack Tippett, for the reason that he could not see where his interest came in. There was a rock-breaking contest, wherein the redoubtable Roebor, the wrestler, broke the rocks with his fist, while it required a twelve-pound sledge in the hands of a blacksmith to do the same. The stones being broken, two or three or four "kids" appeared in two-handed boxing contests, and then the event of the afternoon failed to materialize. Roebor was there and willing, but the other gladiator of the mat would not come on. Some of the select audience were inconsiderate enough to demand their money back, and some of them, it is alleged, got it.

ANGELS CAMP IN FULL BLAST

ANGELS CAMP, March 2.—All the big mines of Angels Camp, Calaveras county, are again working with a full complement of men after a nine months' shut down. The mines have been unwatered and each company is striving to make up for the time lost by increasing their force and rushing development work. It was the most bitter labor struggle ever waged in California mining fields between employers and employees, and the lessons taught are not likely to be soon forgotten.

At the Utica mine a large force of men has been put to work during the past few weeks and an enormous quantity of ore is being developed. The shaft, recently damaged by an explosion, has been thoroughly repaired, and extensive developments are under way in the lower workings.

At the Lightner mine, 60 stamps are constantly dropping and the ore is being mined, milled and chlorinated at an average cost of \$2 a ton. The ledges are large with values running from \$3 a ton up.

Twenty stamps are dropping at the Angels mill and a large force of men is busily engaged developing and extracting ore. Most of the quartz is coming from the main ledge, with some values from smaller veins.

TRIES TO KILL PARTNER AT ELY

ELY, Nev., March 2.—M. F. Rickard, better known as "Little Tex," Saturday shot John McMahon, his partner, in the Palace saloon. The quarrel started over financial matters. It is stated that both men drew pistols, but Rickard was the quicker. McMahon's injuries, while painful, probably are not serious. Rickard was arrested, but expects to be released on bail.

REV. THOMAS ACCEPTS CALL

WILL BECOME RECTOR OF ST. MARK'S EPISCOPAL CHURCH.

The Rev. Lloyd B. Thomas, who has been here for the past ten days, left for his home at Battle Mountain yesterday. At the Sunday night service he made the announcement that he had accepted the call of the St. Mark's Episcopal church, and that he would return here in May to take charge of the parish. This was good news to those who heard it, for the Rev. Mr. Thomas has made quite a favorable impression during his stay and he declared himself very well pleased with the city and the surroundings.

HUMAN HEAD FOUND IN BOX

GHASTLY DISCOVERY MADE BY MINER NEAR MODOC MINE.

M. J. Howard of Goldfield, who is now in Rhyolite, returning from Darwin, in the Argus range, where he has mining interests, made a few ghastly discoveries in the Panamint valley on the trip in. Some four miles from the old Modoc mine, between Darwin and Wild Rose, he discovered the remains of a human body buried under a pile of rocks seven or eight feet in height. His attention was attracted to the burial place by a shin bone sticking out from beneath the rocks. On the bone was hanging a miner's laced boot, dried and shriveled from long exposure to the weather, and in the boot were the bones of the foot, fallen apart through decay of the ligaments.

The man had evidently been dead for many years, and there was nothing left by which his identification could be established. The bones were thoroughly bleached, indicative of their long exposure.

The next discovery which Mr. Howard made was that of a human head in a cracker box three or four miles from the first. The box bore the writing: "This head was found in the gulch." The head, Mr. Howard says, looked like it had been severed from the trunk by some sharp instrument, and it was in a fair state of preservation, to all appearances the man having been dead only a few months.

The hair had not fallen from the scalp, and even the eyebrows remained. The man was light-complexioned, and Mr. Howard says that the features indicated that he was a Swede, perhaps 28 or 30 years old. The skull itself bore no evidence that violence had been committed, though the fact that the head had been severed from the body points to such a conclusion. The head showed no marks to lead to the belief that it had been touched by wild animals, and Mr. Howard thinks that it had not been detached by such an agency.—Bullfrog Miner.

LIFE TAKEN BY TRUANT OFFICER

(By Associated Press.)
SAN JOSE, March 2.—John Ivanovich, member of a fruit commission firm of San Francisco, was shot and almost instantly killed this forenoon in front of his residence by Truant Officer Frank Shafter. Shafter had gone to Ivanovich's home to learn why his son failed to attend school, and seeing the boy in the yard he called to him and forcibly lifted him into the buggy. The boy fought and called to his father, who attempted to rescue his son. During the struggle Shafter drew a revolver and fired, the shot striking the victim just below the heart.

Jack Tripp suddenly collapsed yesterday afternoon in front of the Brokerage Exchange, and was carried within, and Dr. Clark hastily summoned. Tripp was found to be suffering from heart failure, but it was only the work of a few minutes to bring him around. He was later removed to his home, and last night he had entirely recovered.
